Meri Khurshudyan Burn Down Charts

Sprint 3: MySQL System Setup

MySQL system setup		
Description	Ideal Hours	Hours
schema design	30	20
mysql setup	20	10
remote ssl	10	8
sniffer	5	5
COMPLETION	0	5
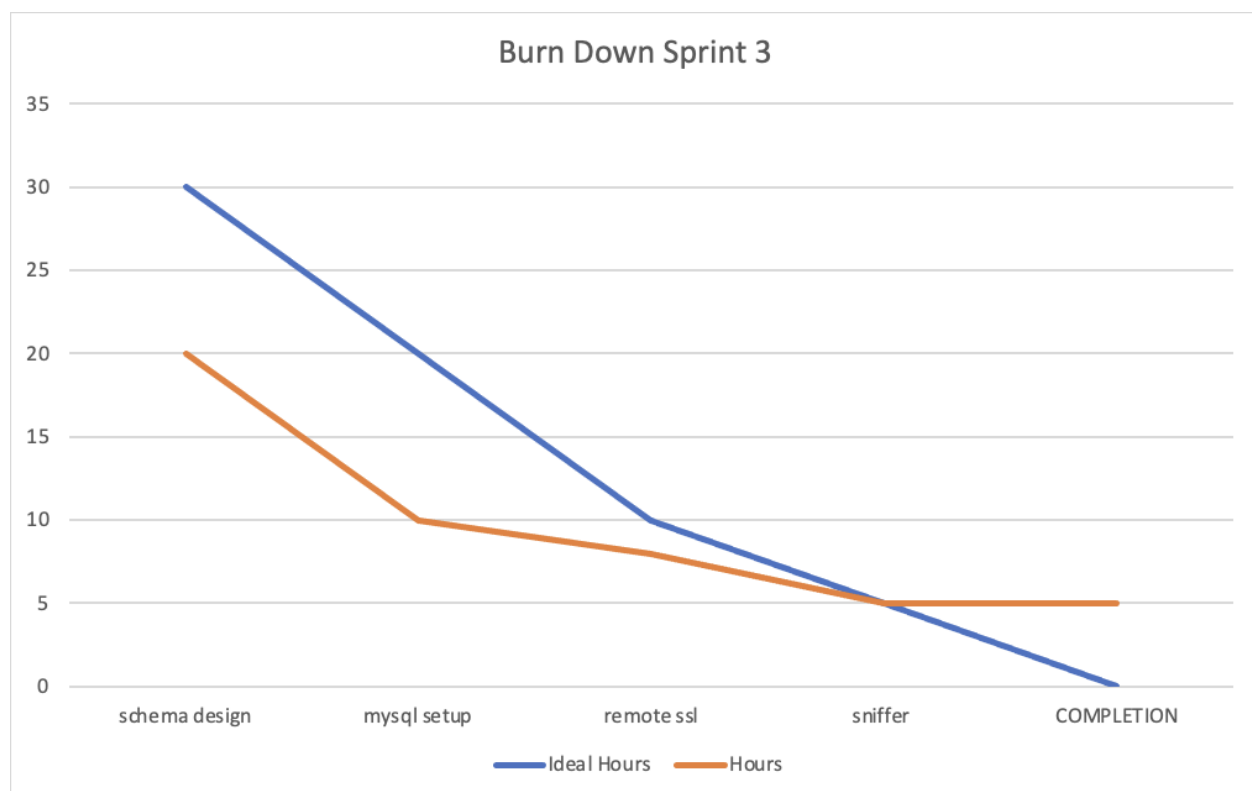

Although an SSL only constrain is cast upon user CS370, I did not get the chance to verify connection status using ubuntu sniffer. In addition, I did not get the opportunity to allow older versions of ciphers to connect to the database.

Sprint 2B: Servlet using HTTP Get

Servlet		
Description	Ideal Hours	Hours
http Get	30	50
html radio/text/checkbox	10	20
https	5	10
sniffer	0	5
COMPLETION	0	2

Burn Down Sprint 2B
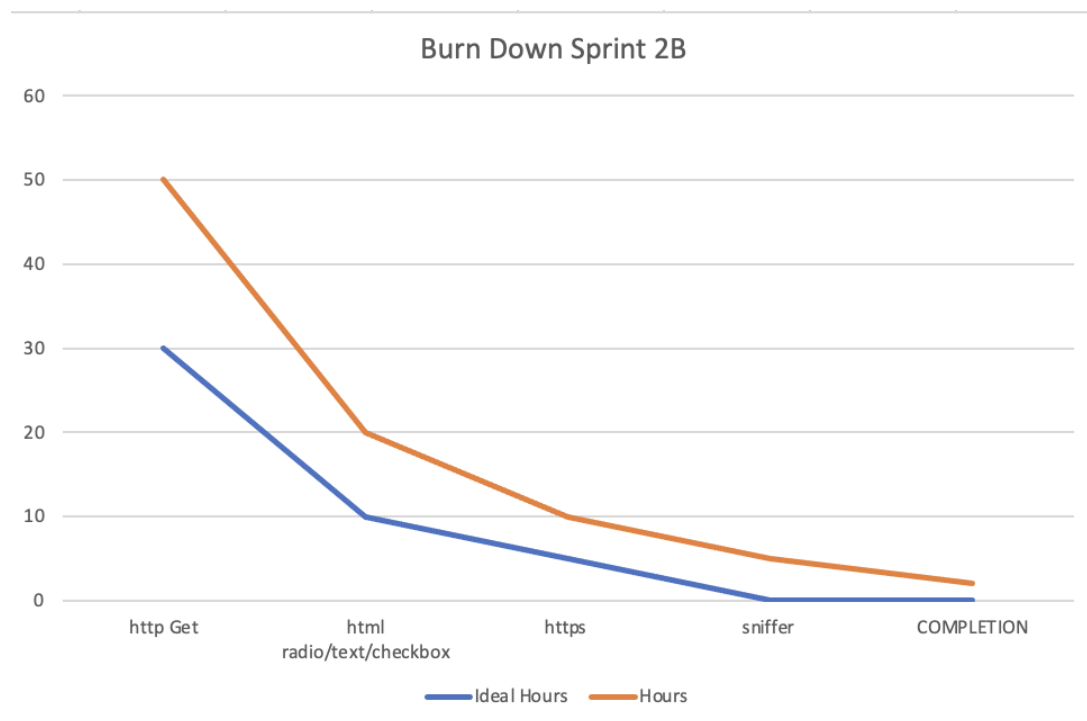

This sprint took me longer than expected and does not have an ideal user interface that we originally anticipated. The reason why this sprint is not yet complete is that it could be implementing more tools than it is currently not because of the formatting.
